Expand your skills and options for TKA and THA

This interactive course empowers you with comprehensive approaches and contemporary techniques to improve your operative performance in complex primary and revision total knee arthroplasty and total hip arthroplasty.

Through a dynamic blend of case-based presentations, point-counterpoint debates, keynote lectures, and intimate round tables your world-renowned faculty explores all aspects of TKA and THA. Review technique, technology and instability to post-operative dilemmas and infection.

Highlights include:

- Faculty case presentations with strategies, tips, and pearls, followed by a moderated panel discussion
- Small group round tables to discuss challenges directly with recognized experts
- "Golden Hip" and "Golden Knee" Video Competition, Voting and Awards

Bring your extended care team, PAs and nurses, to build synergy in your approaches and improve patient care at every touchpoint.

At the conclusion of this course, learners should be able to:

- Approach a variety of complex hip and knee arthroplasty cases with evidence-based solutions
- Discuss a number of options for various controversies in hip and knee arthroplasty
