From Our Fellows

“The Rothman-Ranawat Traveling Fellowship provided a wonderful educational experience to our group. We were able to visit centers of excellence across the country and learn from the leaders in our field. The opportunity to exchange ideas, build friendships with each other and with our site hosts, and spend time both in and out of the clinical environment while touring the various sites was invaluable to us. We are extremely grateful to The Hip Society for providing this amazing opportunity.”

Christopher E. Pelt, MD (Salt Lake City, Utah)

At A Glance

April—application cycle begins

August 15—deadline to submit applications

October—four traveling Fellows are selected and notified

AAOS Annual Meeting and Specialty Day—fellowship begins; the program lasts approximately 4 weeks in March-April during which 10 host sites are visited

The Hip Society

Rothman-Ranawat Traveling Fellowship

The opportunity of a lifetime
About

Named to honor the significant contributions, and to preserve the legacy, of Richard H. Rothman, MD and Chitranjan S. Ranawat, MD, The Hip Society’s Rothman-Ranawat Traveling Fellowship is open to four (4) young orthopaedic surgeons from North America (USA and Canada), and throughout the world. Once selected, the traveling fellows visit up to ten (10) sites in North America as identified by the Fellowship & Mentorship Committee. The host sites structure the fellows’ visits to include personal interaction, conferences, surgical observations, and cadaver labs. The ultimate goal of the fellowship is to offer the young surgeons an inspirational tour of state-of-the-art facilities providing exemplary surgical care of the hip joint throughout North America.

Criteria

✓ Board eligible/board certified practicing orthopaedic surgeons, with specialty training in the area of hip surgery, and minimum 2 years of practice.
✓ Committed to practice of hip surgery and able to demonstrate documented interest in advancing hip surgery through publications, presentations, research.
✓ Able to travel and be away from home and practice for an extended time.
✓ Fluent in written and spoken English.

The map below is a sample itinerary of the Fellows’ travel.
